

Sharing from Joyce Hui, SFCC Graduate (2005)

I spent 12 years in St. Francis' and it's been 7 years since I graduated. My school life MEMORIES are still fresh and they are very precious to me. I went back to school in the end of April, the school redevelopment project was in progress, things changed, environment changed, but people didn't change. They are just like my family, and time didn't separate us. I can totally be myself in front of them, I don't have to put up any front because they know me, love and accept me exactly as I am.

I would like to take this opportunity to say thank you to Sister and all teachers. You've made me become a better person.

GOD Bless you.

Joyce Hui (2005)
