

Challenges Are Nothing

Life is hard, but we will never get stuck.

We live in just the way that we believe.

Challenges are like a fast moving truck

Just like strong seawind blowing through your skin.

Challenges appear at times in our lives

Be ready whenever they come to you

Helping hands from family give me five

Their loving and caring are always true

Advice from teachers is so important

Don't ever give up; be optimistic

Courage is essentially abundant

The feeling of success is fantastic

Passing day by day, season to season

Solve difficulties and learn through lessons
