

School Life

We find our school life is so wonderful
Students and teachers, one big family
Even when our classmates are too playful
We all study and work here happily.
We think teachers here are so very nice
They do their best to teach us patiently.
We think classmates here are so very nice.
They do their best to treat us politely.
As more and more homework is given out,
More and more challenges we must cope with.
As more and more pressure stresses us out,
More and more balance is needed forthwith.
The things that happen in school make me smile.
All these things will carry me for a while.
