

Wasting Time

Wasting Time

As time is the thing we can't touch or feel
Time runs away from us at a fast pace
And we can't catch it with hands free in air
So we just chase it with scheduled care
I'm always bored at home from day to night
But I do my homework late, is this right?
Then I always sleep at school though it's light
But run and jump at playtime with such might
Time that is lost like a ship with no berth
During time off to pray and hug and rest
Time murdered silently with no rebirth
An ideal dream saves for us what is best
So cherish the time we have on this day
And try to manage time well every day
