

What is Love?

People often like to ask 'what is love?'
And when we seriously think it through
Love is something that is extremely tough
And it is something that is always true
Love contains much more than simply friendship
Thus, Love should not be rude and imprudent
We need to maintain our relationships
Sometimes we have to be independent
Between us there is bright loving fire
And I am so thankful that still today
Our love makes us stronger, braver and true
And this endless love will forever stay
Love is something that makes us feel pleasure
Therefore, it is Love we need to treasure.
